## Skills

ReactJs 80%

Nodejs 80%

Mongodb, MySql 80%

Problem solving 100%

Creative thinking 80%

## OBJECTIVE

I am a Javascript developer with about 3 years experience working as a freelance developer. My most frequently used frameworks, environments and libraries include NodeJs, React, and NextJs. I am a passionate developer and love to make significant contribution to development projects while enhancing my skills.

## EXPERIENCE

### Freelance

2019 -

Present

ReactJs Developer

Develop user interface features using React.js. Building reusable components and front-end libraries.

Translate designs and wireframes into high-quality code.

Optimize components for maximum performance across a vast array of web-capable devices and browsers.

Build responsive, robust and optimised applications.

### Freelance

2019 -

Present

NodeJs Developer

Design and implement backend infrastructure and APIs.

Write high quality code that is robust, readable and scales.

Troubleshoot & debug applications.

Implement effective security protocols, data protection measures, and storage solutions.

## EDUCATION

Federal University of Technology, Akure

B.Tech in Physics

4.18/5
